POSITION POSTING

Completions Engineer or Technologist

LOCATION: Calgary Office
REPORTING TO: Drilling & Completions Manager

RESPONSIBILITIES:

This position will be located in the Calgary Office with the majority of the work being based in Alberta. This role will primarily be responsible for, but not limited to the following:

- prepare AFE's for planned work and obtain appropriate approvals;
- program, schedule and monitor all completion and workover activity for the company;
- organize equipment and supervision of jobs;
- receive and review morning reports and liaise with field supervisors;
- liaise with service companies;
- responsible for dealing with regulatory agencies to keep informed of changing regulations and ensure all work is done according to current regulations. Must be up to date on all relevant government regulations in Alberta and British Columbia.
- keep abreast of new technology and implement where appropriate;
- work closely with production engineers and geologists to ensure everyone is in agreement with planned operations;
- communicate with partners to ensure all working interest owners are committed to planned operations;
- review and approve invoices.

QUALIFICATIONS:

To meet the challenge of this role, we are seeking a motivated, self-starter who works well under minimal supervision. The successful candidate will have 5 - 15 years related oil and gas experience comprised ideally of both office and field experience, in addition to formal education as an Engineering Technologist or a degree in Engineering. Candidates must be well versed in all aspects of completion and workover operations with recent experience in horizontal well stimulations. Drilling experience would be an asset. Must be comfortable with Excel, Word and Accumap and possess a high level of proficiency in both oral and written communication skills.

QUALIFIED APPLICANTS SHOULD REPLY IN WRITING TO:
